

ACADEMY OF DENTISTRY TORONTO

PROUDLY PRESENTS the 37th ANNUAL WINTER CLINIC

Thursday, November 28, 1974

ROYAL YORK HOTEL

DENTAL LIBRARY
UNIVERSITY OF TORONTO
121 EDWARD ST.
TORONTO M5G 1G6
ONTARIO, CANADA

PLEASE BRING THIS PROGRAM WITH YOU

The Winter Clinic Committee is pleased to announce that the Academy of General Dentistry accepts the Toronto Academy of Dentistry Winter Clinic for accreditation.

The Toronto Academy has been assigned the number 440.

Please ask at the main desk where Academy members may have their course record forms completed.

SCRAP AMALGAM DRIVE

The Ladies' Auxiliary to the Academy of Dentistry will collect scrap Amalgam and scrap gold in February, 1975. If you have not been contacted and you wish to contribute to this worthy cause, please call. Anyone from out of town attending the Winter Clinic and who wishes to contribute, may bring their contributions at that time.

MRS. A. RENNICK — 282-2243

attend ODA**

ANNUAL CONVENTION

**Mark the dates
in your appointment book NOW**

May 18 - 21, 1975

**Four Seasons Sheraton Hotel
Toronto**

PRESIDENT'S WELCOME

Once again the Academy of Dentistry is privileged to welcome you to its 37th Annual Winter Clinic. The Chairman, Dr. R. S. McKegney, and his Committee have prepared an excellent programme covering all aspects of the practice of dentistry. It is your attendance and encouragement that makes this meeting possible, and we appreciate your participation.

Both the Dental Nurses and the Hygienists too have arranged excellent programmes, and we urge you to have your staff attend.

The commercial exhibitors are at your service. They have brought together the latest in materials and supplies for your consideration. Please visit the exhibits, and for your convenience, they will remain open until 9:00 p.m.

We do hope that you enjoy the programme and the fellowship as we all meet together.

W. S. MacKenzie, D.D.S.

HONORARY
LIFE MEMBERSHIP

Dr. Murray Cornish

The Academy of Dentistry, Toronto is greatly honoured at its Annual Winter Clinic Meeting 1974, to present for Honorary Membership in

the Academy one of Toronto's most respected practitioners, Dr. Murray Cornish.

Dr. Cornish was born in Toronto and attended Niagara Street Public School and Harbord Collegiate Institute. He then entered the Faculty of Dentistry, University of Toronto and graduated in 1939.

Following a short period of private practice in the city, he joined the Royal Canadian Dental Corps, serving at home and overseas in North West Europe before returning to Toronto to resume private practice in 1946.

Dr. Cornish, in addition to conducting a very busy general practice in North Toronto, has given a lifetime of service to his profession and community. There are indeed few people who have given themselves to unselfishly in public service as this gentleman. His contributions to his chosen profession are many. To this Academy of Dentistry he has given years of service as a Councillor with various responsibilities, culminating as its President in 1965-66. To the Ontario Dental Association he has given many years particularly to the Convention Committee, becoming Chairman of General Arrangements for the Centennial Convention in 1967. Presently he is serving the Canadian Dental Association as its ongoing Chairman of the Committee for National Conventions. Also presently he is the Chairman of Local Arrangements for the 65th World Congress of the Federation Dentaire Internationale (FDI) to be held in Toronto in 1977. To his many friends with whom he has worked and helped, he is known as "Mister Convention".

Dr. Cornish is currently President of the Toronto Alumni Chapter of the Alpha Omega Fraternity, having served in many international committees and offices, including that of International President in 1971. He is a Fellow of the International College of Dentists, a Member of the Pierre Fauchard Academy, and a Member of the American Academy of Oral Medicine. He is Head of Oral Diagnosis, Department of Dentistry in New Mount Sinai Hospital in Toronto, and has served as dental consultant to the Medical Unit of the Alcohol and Drug Addiction Research Foundation of the Province of Ontario.

Dr. Cornish is a highly respected responsible citizen in the community life of his home city. He is a Member of the Masonic Order, and of the Shaarei Shomayim Synagogue.

Dr. Cornish is a great family man. He is a devoted husband to his wife Freda, and father to their daughters Leslie and Mardi, both of whom are married.

His spare time has been limited. His hobbies, when the opportunity occurs, are fishing and gardening.

There will also be a presentation of "50 Year" Certificates

“TEMPORO-MANDIBULAR JOINT PROBLEMS”

The Temporomandibular Joint & Facial Pain

A seminar to be presented by five distinguished men representing the disciplines of Prosthodontics, Periodontics, Oral Surgery, Neurology and Physiology.

The same presentation will be given twice during the day at 9:15 and 2:15 (note early start).

Dr. C. O. Munroe will act as moderator and invite each participant to make short opening remarks to include the following points as they apply to each discipline:

Is temporomandibular joint pain-dysfunction syndrome a disease entity?

What is the cause of the condition?

How much do psychologic factors play a part?

Are occlusal abnormalities the main cause?

Is occlusal equilibration a waste of time for these patients?

What drugs should and should not be used in the condition?

What similar conditions may mimic temporomandibular joint-pain dysfunction syndrome?

How may these patients be treated effectively?

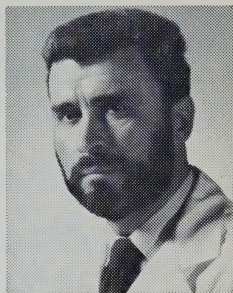

The moderator will then encourage discussion amongst the panelists so that they may enlarge upon the subject following which a definite period of time will be given to discuss questions from the audience.

Place: Territories Room

Time: 9.15 a.m. - 12 noon

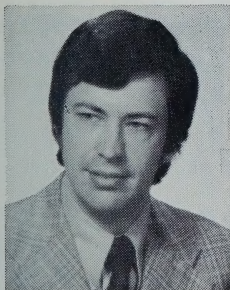

2.15 p.m. - 5.00 p.m.

Dr. Munroe has recently been appointed Dentist-in-chief of the dental department of Mount Sinai Hospital. He graduated in dentistry from the Royal University of Malta in 1957 and has experienced a wide range of further study relating to Oral Surgery in Malta, Eastman Dental Hospital and Royal College of Surgeons in London. Further teaching in Malta, an M.D. degree, and a study of Scandinavian dental schools led to his coming to Canada in 1971 to Faculty of Dentistry as Associate Professor of Oral Medicine.

P A N E L I S T S

**Gerald Baker, D.D.S., M.S., F.R.C.D.(C)
Diplomate, American Bd. Oral Surg.**

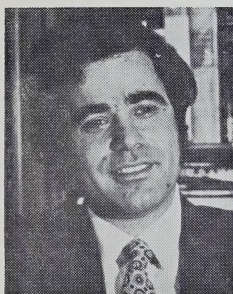

Dr. Baker graduated from the University of Toronto Faculty of Dentistry in 1964 and from the University of Illinois in Oral Surgery in 1968. He is a Diplomate of the American Board of Oral Surgery and a Fellow of the Royal College of Dentists of Canada (Oral Surgery). Dr. Baker is in private practice of Oral Surgery in Toronto and Bramalea and an associate in Dentistry on staff of the Department of Oral Pathology in the Faculty of Dentistry, Toronto. He is on the oral surgery staff at Mt. Sinai General and Northwestern General hospitals and is Chief of Dental Department at Peel Memorial hospital.

S. P. Starkman, M.D., F.R.C.P.(C)

Dr. Starkman graduated from Faculty of Medicine, U of T in 1951. Extensive study in the field of Neurology led to his certification and fellowship in 1956. He is in private practice in Toronto and is a staff physician at New Mount Sinai Hospital and Assistant Professor at Faculty of Medicine, U of T.

Alan N. Winnick, D.D.S., F.R.C.D.(C)

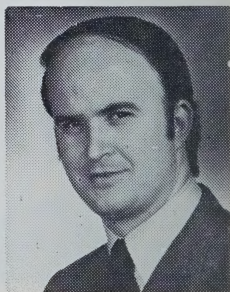

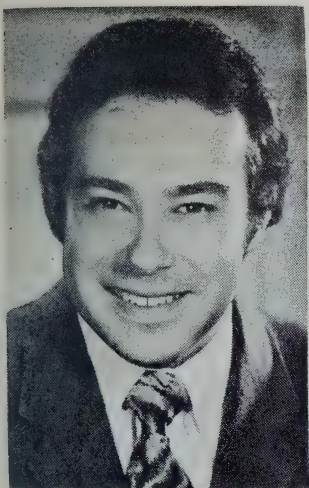

Dr. Winnick earned his D.D.S. at U of T in 1960 and received his diploma in Periodontics at Univ. of Pennsylvania Graduate School of Medicine in 1961. Following study at Boston University and Beth Israel Hospital in Boston, he commenced a private practice of Periodontics in Toronto. He is an Associate in Dentistry at U of T Faculty and associated with Mount Sinai and Scarborough General hospitals.

D.D.S., M.S., F.R.C.D.(C)

George A. Zarb, B.Ch.D. (Malta), M.Sc.,

Dr. A. Zarb has had an impressive educational background in Malta, Univ. of Michigan and Ohio State University. This, however, is no more impressive than his reputation as an experienced practitioner and valued lecturer in the field of prosthodontics. Presently he is assistant editor Journal of Prosthetic Dentistry, Head of restorative dentistry at Toronto General Hospital, Head of prosthetic section at Hospital for Sick Children and Chairman, Department of Prosthodontics at Faculty of Dentistry, U of T.

Electrosurgery in Restorative Dentistry

**JOSEPH C. MORGANELLI,
D.D.S., M.Ed.**

Dr. Morganelli is currently a Professor in the Department of Fixed Prosthetics and Director of Post-Graduate and Continuing Education at Loyola University School of Dentistry, Chicago College of Dental Surgery. He has given in excess of 50 seminars and clinics in the areas of Electrosurgery and Fixed Prosthodontics. He is a member of the American Dental Association, Illinois State Dental Association, Chicago Dental Society and the American Association of Dental Educators.

Synopsis

The course is designed for the General Practitioner who wishes to be exposed to the various techniques in the use of Electrosurgery. It will provide him with the necessary didactic background to be comfortable with the use of this modality in his practice. Procedures discussed will be: Elongation of the Clinician Crowns, Desensitization Dentin, Tissue Retraction, prior to impression taking, gingivectomy and other related restorative concepts.

Place: Confederation Room

Time: 9:30 a.m. - 11:45 a.m.

2:30 p.m. - 4:45 p.m.

— Chairman — Dr. P. W. Kowalchuk

— Chairman — Dr. M. Hardy

Periodontics: Integrated Into General Practice

B. J. ZULQAR-NAIN, D.D.S., M.S.

London

Synopsis:

Prevention of periodontal disease is of paramount importance if the dentist expects to maintain the patient's natural dentition, or restore lost function by restorative procedures. This presentation is designed to reacquaint the practitioner with the Physiology of the periodontium, the etiology, the histopathology and the diagnosis of periodontal diseases. The rationale for treatment of periodontal treatment planning, the basis for treatment and the selection of the appropriate treatment plan will be emphasized. The important role of general practitioner will be stressed.

Biography:

Dr. Zulqar-nain graduated in 1961 from the University of the Punjab in Pakistan. Dr. Zulqar-nain was awarded the Fulbright Fellowship to come to the U.S.A. From 1963-65, he did post-graduate fellowship in Oral Medicine at Forsyth Dental Center and Harvard School of Dental Medicine. In 1965, he joined Eastman Dental Center for specialty training in Periodontics and enrolled at the University of Rochester for M.S., which he completed in 1968.

Since July, 1968, he has been associated with the Faculty of Dentistry at the University of Western Ontario. He became Associate Professor and Chairman of the Division of Periodontology, Department of Oral Medicine in 1971. He is on active staff of the University Hospital in London as a periodontist since March, 1973.

Place: Tudor Room

Time: 9:30 a.m. - 11:30 a.m. — Chairman — Dr. J. G. Linghorne

Occlusion and Fixed Prosthodontics

B. L. PEDLAR, D.D.S., M.S.D.

Burlington

Synopsis:

The clinician will present his approach, research and clinical methods used to develop occlusions for fixed prosthodontics.

Biography:

Dr. B. Larry Pedlar graduated from the University of Toronto in 1963. After private practice in Burlington until 1970 when he returned to the University of Indiana. There he obtained an M.S.D. degree in fixed prosthodontics in 1972 and completed his American Board of Prosthodontic examinations in 1973 to become a Fellow of the American College of Prosthodontics. He is presently practicing in Burlington and is an associate in dentistry in the Restorative Department at the University of Toronto.

Place: Tudor Room

Time: 2:30 p.m. - 4:40 p.m. — Chairman — Dr. M. Adams

Intra Oral Photography

B. GLAZER, D.D.S.

Toronto

Synopsis:

The presentation will concern itself mainly with 35 millimeter single lens reflex photography. An attempt will be made to compare all of the existing camera systems available to the Dentist interested in doing intra oral photography. Basic lighting and optics, lighting systems, armamentarium and film selection will be covered. The presentation will be straight-forward and basic in an attempt to unravel the mumble-jumble associated with non-automated cameras.

Biography:

Dr. Bruce Glazer received his D.D.S. from the University of Toronto in 1966, his B.Sc.D. in Anaesthesia in 1968 and his Fellowship in General Anaesthesia (A.D.S.A.) in 1971. He is an Associate in the Department of Anaesthesia, University of Toronto, President of the Ontario Dental Society of Anaesthesiology and is engaged in general practice with a special interest in anaesthesia in the Toronto area.

Place: British Columbia Room

Time: 9:30 - 10:30 a.m.

2:30 - 3:30 p.m.

— Chairman — Dr. L. Hausman

— Chairman — Dr. G. Pitkin

Predictably Successful Endodontics

BARRY CHAPNICK, B.A., D.D.S.

Toronto

Synopsis:

The proven success of endodontic therapy indicates that almost all pulp involved teeth may be retained if properly treated. As a result, more and more general dentists have incorporated treatment of uncomplicated endodontic cases into their office routine.

This lecture is designed to update the knowledge and skill of those dentists who already employ endodontic techniques in their practices. An emphasis is made on a simplified approach to root canal preparation (cleaning and shaping) and obturation utilizing the warm gutta percha filling technique in order to eliminate many misconceptions and fears that have been developed. An attempt will also be made to discuss diagnosis and treatment of endodontic emergencies.

Biography:

Dr. Barry Chapnick graduated with a D.D.S. from the University of Toronto in 1970. He then participated in a rotating dental internship at University Hospital in Boston, Massachusetts. Following his internship, Dr. Chapnick pursued a Stomatology Fellowship at Boston University Medical Center. He received his Endodontic Specialty training at Boston University School of Graduate Dentistry completing his program in May 1974. He is presently in private endodontic practice in Toronto.

Place: Alberta Room

Time: 9:30 a.m. - 10:30 a.m.

2:30 p.m. - 3:30 p.m.

— Chairman — Dr. W. C. Stephens

— Chairman — Dr. G. Solomon

Uses and Misuses of Extraoral Radiography in General Practice

**SIDNEY M. FIREMAN, D.D.S., M.Sc.D.
Toronto**

Synopsis:

The use of panoramic, lateral oblique and temporo-mandibular joint projections have become increasingly popular in recent years. This clinic will be concerned with their proper use and will be directed toward general dental practice.

Biographical Sketch:

Graduated D.D.S., U of T in 1968; Graduated M.Sc.D. in Radiology, U of T in 1972; Part time general practice 1968-72; Demonstrator in Anatomy, 1968-9; Associate, Dept. of Radiology, Fac. of Dent., 1969-present; Editorial Consultant in Radiology to ORAL HEALTH; President, Ontario Society of Oral Radiology; Presently in private practice in Oral Radiology at 99 Avenue Rd., Toronto.

Place: Algonquin Room

Time: 9:30 - 10:30 a.m.

2:30 - 3:30 p.m.

— Chairman — **Dr. M. Scandiffio**

— Chairman — **Dr. A. Schaffran**

Orthodontic Treatment Using Removable Appliances

**JACK A. LANGMAID, D.D.S., F.R.C.D.
Oshawa**

Synopsis:

Biomechanic principles of tooth movement will be discussed in relation to removable appliances.

Design and adjustment of appliance will also be part of the discussion.

Slides will be shown for illustration.

Biography:

After graduating from the Faculty of Dentistry, University of Toronto in 1949; Dr. Langmaid continued his post graduate study re Orthodontics at Tufts College in Boston; graduating in 1952.

He has a private practice in Oshawa and is an associate with the Department of graduate Orthodontics, University of Toronto.

Place: Quebec Room

Time: 9:30 - 10:30 a.m.

2:30 - 3:30 p.m.

— Chairman — **Dr. E. King**

— Chairman — **Dr. T. Schipper**

Deep Relaxation — Hypnosis in Action
JOHN C. DUNCAN, B.Dent.Sc., D.D.S., M.Sc.D.,
F.R.A.C.D.S., Hamilton

Synopsis:

All of us are subject to tension in this modern world, the dentist as well as the patient. We would all like to learn to relax and gain control over those tension creating emotions which we encounter so frequently in our daily lives. Hypnosis can give us this relaxation in an instant, as well as many other benefits which are too numerous to mention.

The purpose of this presentation is to teach deep relaxation and autohypnosis to all present, using both group and individual techniques. Everyone present should experience the hypnotic trance and learn the advantages of hypnosis to themselves and their patients. Do come and experience, be refreshed, relax and enjoy yourself—you need it.

Biography:

Dr. Duncan came from Ireland and received his D.D.S. from the University of Toronto in 1958, from which he also obtained his Diploma in Paedodontics in 1966 and his M.Sc.D. in 1967. He is presently an Associate, Faculty of Dentistry, University of Toronto where he teaches hypnosis to the undergraduate and postgraduate students. Dr. Duncan has delivered many lectures on hypnosis and has taught at several workshops run by the American Society of Clinical Hypnosis both in Canada and the United States. He is Past President of the Ontario Society of Clinical Hypnosis and is keenly interested in promoting hypnosis in Ontario. Presently, Dr. Duncan is engaged in general dental practice in Hamilton and uses hypnosis in the treatment of many dental problems.

Place: Manitoba Room

Time: 9:30 a.m. - 10:30 a.m.

2:30 p.m. - 3:30 p.m.

— Chairman — Dr. P. Markle

— Chairman — Dr. N. Dallal

“THE SWOLLEN FACE”

Its Management — When, Where and How

SIMON WEINBERG, D.D.S., F.R.C.D.(C), Toronto

E. ORPANA, D.D.S., Toronto

Synopsis:

This presentation will cover the management of infections from the more localized types on through the more wide-spread and severe cases which involve the greater part of the face and neck, producing the acutely ill patient.

Biography:

Dr. Weinberg graduated from the University of Toronto in 1959 and obtained his Diploma in Oral Surgery from the same University in 1963. He is a Diplomate, American Board of Oral Surgery; Fellow, International Association of Oral Surgeons; Past-President, Ontario Society of Oral Surgeons; Councillor, The Great Lakes Society of Oral Surgeons. Presently he is associated with The Doctors Hospital, Scarborough General Hospital and The Hospital for Sick Children. In addition, he is Associate, Department of Oral Surgery, Faculty of Dentistry, University of Toronto. Dr. Weinberg is also a member of many national and international organizations related to Oral Surgery. He has given many lectures and has numerous articles which have been published.

Dr. E. Orpana graduated from the University of Toronto in Dentistry in 1971. At present he is a Senior Resident, Oral Surgery, University of Toronto.

Place: Quebec Room

Time: 10:45 a.m.

3:45 p.m.

— Chairman — Dr. N. Aurlick

— Chairman — Dr. D. Dover

A Very Practical Approach to Diet Counselling in Dental Office

**M. TRUUVERT, D.D.S., D.Paed.
Toronto**

Synopsis:

For a number of years now our profession has talked about prevention in dentistry and how important it is to teach the patient proper home care. Many of us, however, have been in practice for many years and find it hard to break a routine we and our staff have become accustomed to. Teaching prevention is more a lip service than actual practice. We are sure that we do not have enough time for counselling; we feel that the patient will not take advice; we are not sure of what kind of advice to give; we may not even be convinced ourselves that diet plays such an important role in dental health. These and other apprehensions will be discussed in the clinic and practical suggestions on tips given for solving different problems.

Biography:

Dr. Maret Truuvert was born in Estonia, studied dentistry in Stockholm, Sweden and Toronto, Canada. Received her D.D.S. in Toronto, 1956, and Diploma in Paedodontics in Toronto, 1970. Studied nutrition on graduate level at School of Hygiene 1970-1971. She was in full-time general practice in Toronto, 1956-1968; also on staff of Women's College Hospital Dental Clinic 1960-1968. Right now in part-time private practice as a paedodontist in a group practice with two general practitioners and an orthodontist. On staff at University of Toronto, Faculty of Dentistry, Department of Preventive Dentistry and also Department of Paedodontics.

Place: Algonquin Room

Time: 10:45 a.m.

3:45 p.m.

— Chairman — **Dr. S. Green**

— Chairman — **Dr. A. Black**

Cast Gold and Other Alloys for Restoration

**DENNIS C. SMITH, M.Sc., Ph.D., F.R.I.C.
Toronto**

Synopsis:

A number of alloys intended to substitute for traditional crown and bridge gold alloys have recently come into use. The composition and properties of these nickel-chromium, silver palladium and iron based alloys will be outlined and reviewed in comparison to conventional gold alloys. Their practical clinical value will be discussed.

Biography:

Dr. Smith graduated from the University of London in 1950 and obtained his M.Sc. in 1953 and his Ph.D. in Dental Materials in 1957. He joined the Faculty of Dentistry, University of Toronto in 1969. Dr. Smith is Chairman of the C.D.A. Committee on Dental Materials and Devices, of the Canadian Advisory Committee on International Standards Organisation Technical Committee 106 - Dentistry, of the Biomaterials Society, Toronto and is a Consultant to a number of governmental and professional organisations. He has published over 90 scientific articles and has lectured in many parts of the world.

Place: British Columbia Room

Time: 10:45 a.m.

3:45 p.m.

— Chairman — **Dr. S. L. Sigesmund**

— Chairman — **Dr. S. Schatz**

Methods of Facilitating Restorative Procedures Through Periodontics S. J. PEISER, D.D.S.

Synopsis:

The Periodontist can be of great service to the General Dentist by establishing a healthy environment in which he can work. Slides will augment the talk which will show, not only the establishment of the healthy dentition, but those techniques that can be used to change the existing dental conditions to facilitate restorative procedures, and insure an easier task for the Restorative Dentist, and longer longevity of his prosthesis. Emphasis will be placed on the protection of the Periodontium.

Biography:

Dr. Peiser is associating in Toronto. He received his D.D.S. degree from Columbia University, School of Dental and Oral Surgery. After a year's Internship at the Beth Israel Hospital in Boston, he received his Certificate in Periodontology at Boston University, School of Graduate Dentistry.

He is a member of many professional associations, including the American Academy of Periodontology, and the Massachusetts Society of Periodontology, where he served on the Executive Board.

Place: Alberta Room

Time: 10:45 a.m.

3:45 p.m.

— Chairman — Dr. M. Sterling

— Chairman — Dr. L. Chapnick

Using and Understanding the Oral Pathologist R. J. McCOMB, B.D.S., M.Sc., F.R.C.D.(C) Toronto

Synopsis:

The use of biopsy and cytology techniques, when indicated, is a moral and legal responsibility of every dentist. This clinic is designed to enable any practitioner to feel at ease in making routine use of the pathology laboratory.

The indications for taking a biopsy or smear for cytology, and the interpretation of pathology reports will be discussed. A brief outline of the technical procedures involved in the production of microscopic sections will be presented to permit an understanding of how selection and clinical manipulation of a biopsy specimen by the dentist can affect its histological appearance. Some of the most commonly biopsied lesions will be used to illustrate the presentation.

Biography:

Dr. John McComb graduated in dentistry from the University of Edinburgh in 1968. After a brief period in general practice he went to Winnipeg to begin graduate studies in Oral Pathology. He obtained an M.Sc. from the University of Manitoba in 1971 and moved to Toronto General Hospital where he was a clinical fellow in the Department of Anatomical Pathology. Since 1972 he has been working for a Ph.D. in the Department of Oral Medicine and Pathology in the University of Toronto. Dr. McComb is also on active staff in the Dental Department of Sunnybrook Medical Centre. He obtained the diploma of the American Board of Oral Pathology in the autumn of 1973 and the Fellowship of the Royal College of Dentists of Canada in the spring of 1974.

Place: Manitoba Room

Dental Hygiene Program for Winter Clinic
Images of Ourselves as Dental Hygienists

This year we will focus our attention on one of the most important aspects of our profession, namely, our image.

1. As our patients see us
2. As our Co-workers see us
3. As we see ourselves

Surely these are three of the most significant considerations we must face when in pursuit of a satisfying and stimulating career.

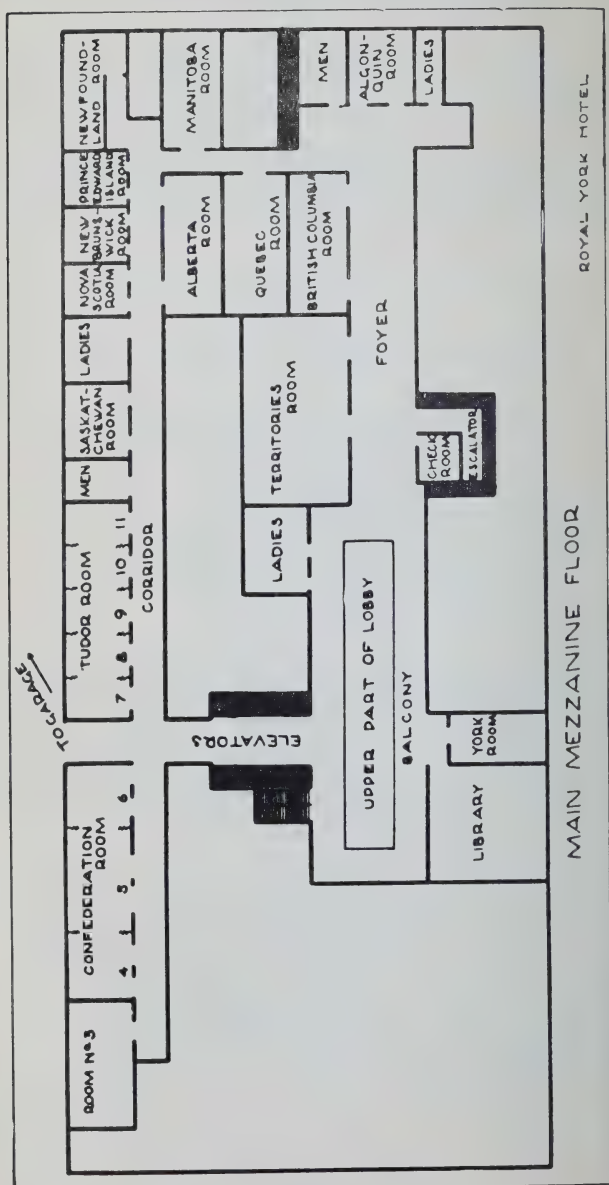

The man who will conduct this day of introspection will be Mr. Reg Bindy from the Center for Counselling and Human Relations of the Y.M.C.A.
